4th Quarter MARCH 20th -MAY 9th (Spring Break: ~March 21st - March 25th) (8 lessons)

Monday's Dates: 3/20, 3/27, 4/3, 4/17, 4/24, 5/1, 5/8, 5/15

3-D Art*: **\$160.00**

**Basic Elements of Art: Line, shape, color, texture, and form are explored. Students will be introduced to a variety of media and tools which will motivate new creativity in their work. Through children's literature and visual examples we will study Master, contemporary and local artists helping to define and develop similar art techniques. Mixed-media projects also help students think "outside the box".*

**Drawing: Drawing will be a main focus as students use their observation and imagination to create works of art. Inspiration is mostly based on our surrounding environment.*

**Painting: As an introduction to painting: students will be exposed to techniques and materials, including water color paints, acrylic paints and fun paints that glitter and shine!*

**3-D Art: Clay, wire and other sculptures. Students will use a clay-like substance, wire and other exciting materials to create projects that are "NOT FLAT".*
